The Board of Directors  
Morton Clarke Fu & Metcalf, Inc.  
Seattle, Washington

We have audited the accompanying statement of financial condition of Morton Clarke Fu & Metcalf, Inc. as of June 30, 2009 and 2008 and the related statement of income, retained earnings, changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material aspects, the financial position of Morton Clarke Fu & Metcalf, Inc. as of June 30, 2009 and 2008 and the results of its operations, changes in stockholders' equity and its cash flows for the years then ended, in conformity with accounting principles generally accepted in United States of America.

**Independent Auditors' Report on Internal  
Accounting Control Required by SEC Rule 17a-5**

The Managing Directors  
Morton Clarke Fu and Metcalf, Inc.

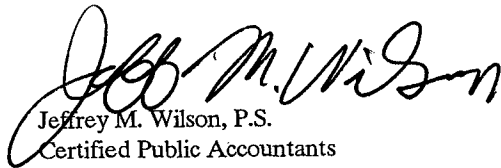

In planning and performing our audit of the financial statements of Morton Clarke Fu and Metcalf, Inc. for the years ended June 30, 2009 and 2008 we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. Among the elements of the internal control structure that we considered are the accounting system and control procedures, including procedures for safeguarding securities.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Morton Clarke Fu and Metcalf, Inc. that we consider relevant to the objectives stated in Rule 17a-5(g)(1) in making the periodic computations or aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provision of Rule 15c3-3.

The management of Morton Clarke Fu and Metcalf, Inc. is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and of the practices and procedures referred to in the preceding paragraph and assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which Morton Clarke Fu and Metcalf, Inc. has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles, Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the accounting system and control procedures, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.
